NRP (Non Removable Pin)

Pin pengaman berupa baut kecil yang dipasang pada bagian tengah selongsong As Engsel. Pin ini berguna untuk mengamankan engsel dari usaha pencopotan secara paksa ketika pintu tertutup.

BALL BEARING

Meningkatkan kemampuan engsel dalam menahan beban karena beban terdistribusi merata pada titik bearing yang ada. Dengan adanya ball bearing maka gerakan buka tutup pintu diakomodasi oleh bola-bola kecil pada bearing sehingga gerakannya akan halus dan tidak menimbulkan suara.
