About Singres

Singres began life in 1999 with a single goal of manufacturing the best of the best for the sake of empowering Indonesian buildings. The vision is simple: blending a perfect mix of uniqueness with a solid foundation, a perfect mix of polar opposites.

Achieving the unique sense of a building is what Singres is capable of. The different hues and array of colors can be seen throughout all of our products, all according to what the customer needs. This would be beneficial towards the buildings that use our products, leaving a bright and lasting impact, all according to the functionality that it hopes to achieve.

Our foundation lays upon the products that we manufacture and send out to various customers. Our ability to maintain the quality of products over the years proves to be a vital part of our commitment for the masses. We continually produce with a high standard, having the trust of the people with products such as the Bon-Bon, Listello, Stepnosing, Hospital-plint, Interior Tiles and Mosaic

Now we are more focusing on our Singres Mosaic and Singres Tiles. We're planning to bring up modern cultures to Indonesia, with a designer touch and new taste to the market. Our goals to make Singres more popular not for their classic items only but, also their new modern and minimalist from mosaic and tiles collection.

When impeccable quality meets undiminishing uniqueness, the end result is your brightest dreams coming true, and that would also mean that we have accomplished what we wanted to do for you all along: providing the best of the best.

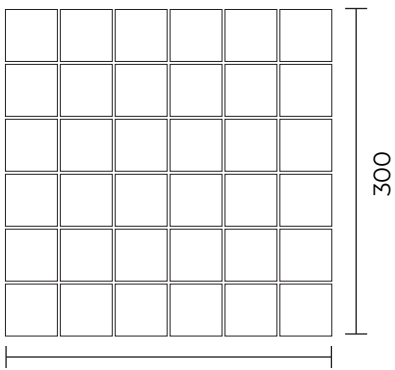

Toba Series

Toba Pattern
