DEWALT

COMPLETE SOLUTIONS

DEWALT® is a market-leading manufacturer of premium power tools, accessories and anchors and fixings that provides a fully integrated system solution for various applications.

DEWALT® tools offer unparalleled performance, with durable construction for a professional finish. Rely on DEWALT® to get the job done, with a 3 year guarantee on most tools.

XR FLEXVOLT

Taking cordless drilling to the next level, the newest DEWALT® 60V MAX* XR FLEXVOLT® range provides true corded performance without the restrictions of the cord. With Brushless motors and Perform & Protect™ low vibration levels, these tools set the new standard on the jobsite.

With over 100 tools in the range the 20V MAX* XR® Lithium-Ion battery platform is the biggest and fastest growing in our range. All 20V MAX* XR® products are compatible with XR FLEXVOLT® batteries, giving you longer runtime and even greater flexibility meaning the CORDLESS JOBSITE has arrived.

WHY CHOOSE DEWALT®?

END USER TESTING

Every one of our products are tested at length by genuine construction professionals, ensuring they never let a user down. Under the most demanding jobsite conditions, DEWALT® tools earn the right to be labelled GUARANTEED TOUGH® – in the hands of real users.

INNOVATIVE PRODUCTS

To support our users and drive our industry forward, DEWALT® consistently develop truly innovative products, across multiple categories.

This technical strength is regularly recognised by international design awards.

USER LOYALTY

DEWALT® guarantees to deliver and service high performance solution that enable the end-user to achieve productive and professional results. The cast-iron DEWALT® guarantee and premium service network ensure that our users have faith in the quality of our products. First-time buyers will become loyal DEWALT® users.

DEWALT® is constantly pushing the boundaries to create the most innovative tools for the construction professional.

Power tools which carry the Perform & Protect shield have passed rigorous testing to ensure they exceed the highest demands of the toughest environments, while maintaining a fundamental emphasis on safety. All of these products have to meet strict criteria in one or more of the following core areas: Control; Vibration; Dust.

CONTROL

Bind-up situations can occur when drilling, cutting, or grinding. These sudden torque reactions, when the tool body rotates, can potentially damage the tool or injure the user.

The Perform & Protect shield for **CONTROL** shows which products have additional features to help in those critical bind-up situations.

The two main different systems are:

- Anti rotation System for Rotary hammers
- Electronic Clutch for drills and grinders

CONTROL

Unique and innovative torque control features

VIBRATION

Up to 50% lower vibration*

DUST

Industry leading dust extraction solutions

VIBRATION

Vibration exposure can cause a range of conditions collectively know as hand-arm vibration syndrome (HAVS). Other conditions include carpal tunnel syndrome and vibration white finger.

When the Perform & Protect shield is awarded for **VIBRATION**, it is guaranteed that Tri-Axial vibration levels have been reduced, increasing usage time without reducing performance.

Three different anti-vibration systems are:

- Active Vibration Control
- Floating back handle
- Counter Balance System

DUST

Airborne dust inhalation can lead to a number of long-term health conditions such as silicosis and chronic obstructive pulmonary disease (COPD).

When the Perform & Protect shield is awarded for **DUST**, it is guaranteed the potential of inhaling dust is reduced to give a cleaner and safer working environment.

*When compared to hammers without this feature

DeWALT

XR FLEXVOLT
POWER OF CORDED | FREEDOM OF CORDLESS

WHAT IS XR FLEXVOLT?

XR FLEXVOLT® is a range of 60V MAX* power tools that offer runtime and performance which has never been seen before – for the first time, professional users can reliably undertake heavy-duty construction applications without the need for mains power.

This innovation means that for the first time, you can have 60V MAX* power across a whole range of tools without the inconvenience of a cable. DeWALT® XR FLEXVOLT® is the only battery on the market that can switch from 60V MAX* to 20V MAX*, making it backward-compatible with your existing XR® power tools.

CONVERTIBLE BATTERY PACK

BACKWARDS COMPATIBLE

XR FLEXVOLT®

DeWALT® is committed to offering real-world practicality and convenience. The XR FLEXVOLT® battery pack is not only interchangeable across the complete 60V MAX* range but is also backwards compatible with all existing 20V MAX* XR® tools. Circular saws, Drills, Table Saws, Nail Guns, Alligator Saws, Impact Drivers – professional users can now operate every power tool they need on a single cordless system.

HOW XR FLEXVOLT® WORKS

INTELLIGENT DESIGN

XR FLEXVOLT® batteries are 20V MAX* batteries that switch up to 60V MAX* when placed on a XR FLEXVOLT® tool. They are fully compatible with the entire 20V MAX* XR range, including chargers.

Parallel connection

Series connection

60V MAX*

- WITH NO CORDS

All the tool power you need - where you need it

AUTO SWITCHING

The only battery on the market that can switch from 20V MAX* to 60V MAX*

ADVANCED TECHNOLOGY

Standard XR® batteries have 5 x 3.6V (20V) cells connecting in a series and either one or two strings in parallel, giving either an 20V 2Ah or an 20V 5Ah battery.

FLEXVOLT® batteries are flexible. They connect in parallel for 20V MAX* tools and in a series for 60V MAX* tools. The result? The right power for the tool - with increased runtime and consistent performance.

XR® COMPATIBLE

Use with your existing XR® Powertools

HEAVY DUTY POWER

Helping to build the cordless jobsite

DeWALT SERVICE

CONVENIENCE: At the heart of the DeWALT® 5 star service promise are 5 star service agents which are conveniently located throughout the country, with specialists always available to answer any questions whether you are on or off the jobsite.

SPEED: Having your tools back in action in the fastest time possible is our prime objective. Subject to parts availability, most repairs should not take more than 48 hours in the workshop and for those smaller urgent repairs we provide a "while-u-wait" service.

QUALITY: Highest Quality is assured with DeWALT® factory trained technicians carrying out all repairs with all work being backed by our 90 day warranty. Each DeWALT® repair comes with our personal "satisfaction tag" listing all the work done and a DeWALT® contact telephone number should you be less than 100% happy with the repair.

GENUINE PARTS: All parts used in repairs are original, ensuring both the highest quality and a perfect fit every time.

ONLINE SERVICE: www.2helpU.com provides information on the DeWALT® After Sales Services, including DeWALT® authorised repair agent locations, some frequently asked questions, technical information, spare part details, warranty policy and recycling of used tools.

Not all DeWALT® service agents are 5 star rated. Those that are not may not be able to provide all services available above but will display in-store a detailed list of their selected services.

DEWALT 3YR WARRANTY

We believe a solid warranty package ensures the safety, reliability and service our products are meant to deliver - from the beginning to the end of every job.

The DeWALT® 3 year warranty covers manufacturing defects and labour for all products.

WARRANTY TERMS AND CONDITIONS

DeWALT® will repair, without charge, any defects due to defective materials or workmanship, within 3 years from date of purchase.

- The Warranty does not cover part failure due to excessive wear and tear or tool misuse

Wear & Tear refers to the number of hours and/or the environment that a product has been used in; this can affect: Armature Commutators, Bearings, Switches, Beat Pieces, Clutches, Gear & Pinion, Gearcase, Brushes, Chucks, Clamshells, Cord sets, Rubber parts and Attachments (Battery, Charger, Guard, Flanges ... etc.)

- The warranty does not apply where repairs have been attempted by unauthorised persons
- Issues not covered by the warranty include:
 - Extreme impacts or drops
 - Ingestion of foreign objects (i.e. Nails, screws ... etc)
 - Using tool for non-intended application
 - Any modification to the tool
 - Prolonged exposure to the extreme weather conditions
 - Wrong voltage
 - Using incorrect accessories or attachments
 - Lack of recommended service (especially hammers)
 - Use of incorrect grease
 - Not repaired with DeWALT® genuine parts

CUSTOMER EXPERIENCE CENTRE

Stanley Black & Decker currently operates state of art customer experience centers in four locations across Asia in Seoul - South Korea, Bangkok - Thailand, Pune - India & Shuzho - China. These centers not only enables us to showcase leading innovations in the world of powers tools, hand tools & power tool accessories it also provided a great platform for our customers to get an hands-on experience on using these products and make the right selection for some of their most demanding applications.

In addition these centers are used for safety & application trainings for industrial applications, new employee induction & advance employee modules, customer & channel partner team training, top to top

interactions and last but not the least Corporate Social Responsibility initiatives centered around makers of tomorrow – tradesmen, contractors and students in true spirit of our corporate mission. For the builders and protectors, for the makers and explorers, for those shaping and reshaping our world through hard work and inspiration, Stanley Black & Decker provides the tools and innovative solutions you can trust to get the job done—and we have since 1843.
